

A SINGLE CONTRACT FOR A COMPREHENSIVE ENTERPRISE TRANSFORMATION

RISE WITH SAP | Business Transformation as a Service

RISE with SAP

As we all know, change is constant. This means the transformation of your business cannot be a fixed destination but a continuously evolving journey. Holistic evolution doesn't take place simply by performing a technical migration to the cloud, as the digital transformation needs to be comprehensive and inclusive.

This is where RISE with SAP comes in.

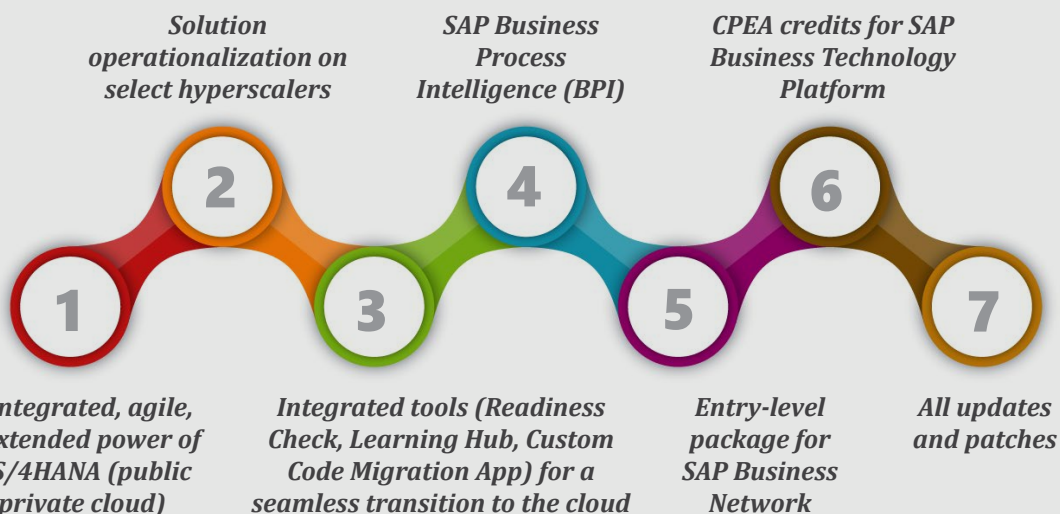

This remarkable program ensures that your enterprise doesn't have to search for multiple alternatives in the quest for fundamental, tangible transformation. In fact, in a single bundle and backed by a vibrant ecosystem of technologies, your business can not only attain faster time to value on the cloud – on your terms and speed but also do it with simplicity – regardless of your starting point.

How YASH can Help

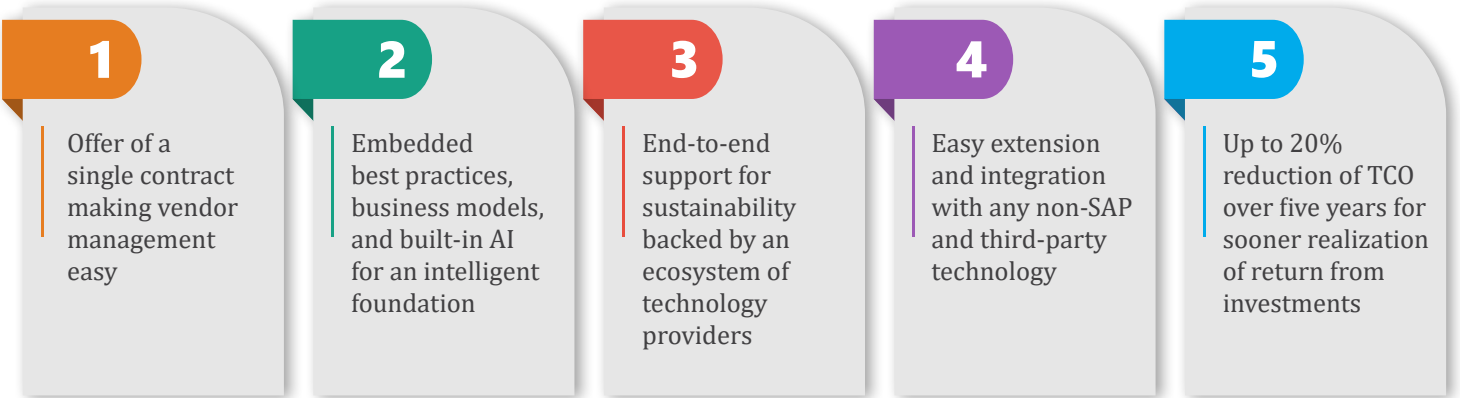

As one of the largest SAP service providers globally, with several RISE with SAP projects already underway, YASH Technologies plays a pivotal role in augmenting this SAP offering with our CoE driven advisory, implementation, and business transformation services. As a global SAP Gold partner, the core of YASH's success lies in its proven competencies in the underlying components of RISE with SAP – Business Process Redesign, Technical Migration, and Intelligent Enterprise.

As a modern managed cloud service provider for leading hyperscalers and with in-depth expertise in the SAP application suite, we help you take full advantage of RISE with SAP. Leveraging our strong credentials in SAP services from HANA, S/4HANA, analytics to focused RISE services, we help your enterprise become intelligent, seize new opportunities quickly, support your secure move to the cloud and drive business innovations with ease. As your partner, we will collaborate with you to implement the SAP solutions, develop tailor-made extensions that precisely match your requirements, and supplement the standard SAP functionalities with industry-specific add-ons.
