

More than what you think.

Accelerate your S/4HANA Implementation or Rollout with a Focused Data Partner

61% said that Data Management Challenges have slowed or will slow the automation of their business processes - study by the UKISUG

66% stated that data management is a challenge when moving from SAP ECC 6.0 to SAP S/4HANA - study by the UKISUG

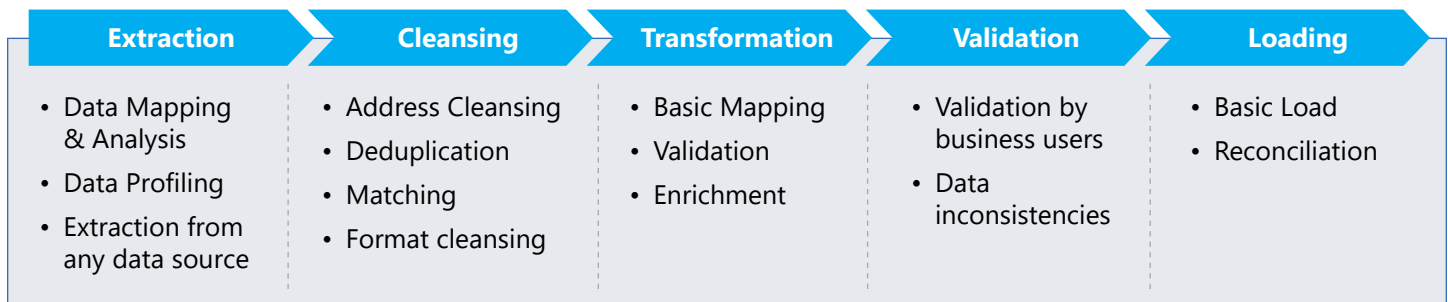

Data Migration is an inextricable part of every new system implementation. For an SAP S/4HANA project which helps redefine and remodel business processes, seamless data migration is pivotal for organizations to realize value.

YASH works with organizations like yours as an end-to-end S/4HANA implementation partner or a Specialised S/4HANA Data Migration partner.

Our advisory leaders work with your implementation planning and deployment teams in architecting a holistic and customized strategy for data migration.

Without compromising the data quality, implementation timelines, and costs, we help clients drive effective S/4HANA implementation or rollouts.

YASH Data Migration Processes

Value Proposition

- **SAP Partnership:** YASH is one of the largest SAP Services providers that offers SAP Data solutions with in-depth methodologies and expert consultants. With a proven track record of delivering transformative implementations globally, we help organizations drive sustained value and ROI.
- **Data Migration Expertise:** YASH's Focused Data Migration Approach helps to take care of the end-to-end lifecycle of your ETL data using proprietary methodologies, tools, and accelerators like YASH Data Migration Framework, YASHS4MIG to seamlessly and efficiently migrate data to S/4HANA. We could be your end-to-end S/4HANA Implementation partner or only focus our energies on helping you get your data migration right
