## SAP Services Portfolio

# Delivering Global Business Transformation: How we worked consultatively with Ecobat to make it happen

## Business Need

- Transform global business processes, achieve success worldwide.
- Streamline operations with SAP best practices, and guaranteed Fit-to-Standard
- Maximize profits with flexible contract pricing and efficient billing
- Take control of risk and stay compliant with regulations.

## YASH Solution

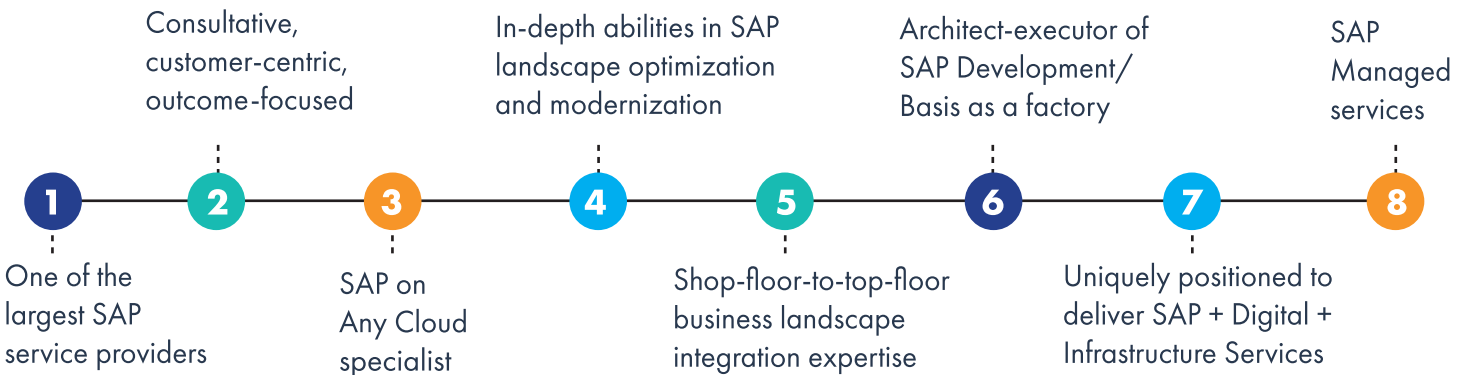

- Integrated US and Europe businesses under SAP S4 ERP system
- Migrated source data without compromising history, deliver cost savings
- Built supply chain and financial processes with S/4HANA best practices
- Shifted critical processes from ECC to S/4HANA and integrate 3rd-party applications
- Redesigned SAP Security roles with hybrid approach of GUI T-Codes and Fiori
- Develop global template with new company code structure

## Benefits

- Documented 120+ process maps, SIPOCs, and KPIs for functions
- Established base for process harmonization in the US, tracked value realization and identified improvement opportunities

## Think SAP, Think YASH
