

More than what you think.

Driving better 'Safety and Sustainability' outcomes through Digital Transformation

In today's world, organizations must integrate Digital Technologies and Innovative Solutions into their overarching operational framework to standardize business processes and build vigorous governance, thereby driving robust compliance.

This will help in early identification and reporting of near-miss events, reduce workplace injuries, mitigate risks, improve productivity, meet global regulatory regulations, drive sustainability & hence optimize overall performance outcomes.

The spent on EHS softwares is expected to increase significantly, to the tune of over USD 2 Billion by 2025, which is over a 10% CAGR from 2020 figures.

Why YASH for your EHS and Sustainability Transformation?

Customer Success Story

A fortune 500 'Medical Devices Manufacturing' corporation who strives to make healthcare better.

Challenges:

- Significant manual processes to manage safety operations globally
- Disparate systems and tools in tracking and reporting incidents
- Challenges / data redundancy in environmental data collection

Solution:

- SAP S/4HANA EHSM Solution hosted on (Azure) public cloud
- Implemented Incident management, Risk assessment, Audit & Environment Management modules in quick phase wise approach
- Close integration with HR systems, SSO and third party regulatory & SDS database for building one single source of truth

Outcomes:

Globally standardized EHS system rolled out across 36 sites in record time

15-20% reduction in OSHA recordable incident cases within the first two years of project

Compliance reports like OSHA, HSE, CDP and injury rate (IR) available at a simple click

Integrated dashboards & greater visibility towards building a world class EHS organization

“ Our relationship with YASH team has never seen the hour or day in which they did not live our long and strategic EHS Vision! Due to their tireless effort, our program has delivered on time, on budget roll-outs of the SAP EHS Management system at 36 plants, supporting over 15K employees.”

- Sr. Director, EHS Global Operations
