

# Enabling Seamless SAP S/4HANA Cloud Adoption for Global Packaging Leader through Strategic OCM

## About the Customer

- **Industry** - Manufacturing
- **Sub Industry** - Battery Recycling
- **Customer HQ** - USA
- **Key Technologies** - OCM

## YASH Solution

- Change Impact Assessment
- Stakeholder Engagement
- Buddy System
- Communications
- Training
- CM Governance
- Effectiveness Assessment

## Business Needs

- The client's change in ownership triggered this new program to consolidate their Global entities running on multiple applications and re-implement SAP S4 in the US in place of SAP ECC.
- Develop a Stronger footprint across geography to build a uniform ERP that helps create a better global future
- Data: Improve the quality of data – Cleanse, De-dup, and Harmonize
- Address key capabilities recommended through a Business Process re-engineering exercise.
- Optimize SAP License Contract and Hardware through the SAP RISE Program
- Adopt Industry Best Practices and minimize manual processes

## Business Outcomes

- Early leadership alignment and buy-in
- High visibility and transparency around the program
- US buddy for UK rollouts
- Learning from the Pilot utilized in the UK rollout
- Effective buddy system to manage and sustain change for the US and UK
- US and UK users demonstrating the ability to perform as per new ways of working
