

Strategic OCM Implementation Enhances SAP S/4HANA Cloud Adoption for Leading Packaging Manufacturer

About the Customer

- **Industry** - Manufacturing
- **Sub Industry** - Packaging
- **Customer HQ** - France
- **Key Technologies** - OCM

Business Needs

- Accelerate and simplify the adoption of SAP S/4HANA Cloud for faster time to value, using best practice business processes with the knowledge of being legally compliant in different countries
- Reduce cost of operations by using standardized processes
- Manage multiple divisions and ledgers within the pilot rollout
- Drive operational efficiencies and comply with regulations
- Empower business and IT users equally with guided configuration
- Allow a first-hand experience of SAP S/4HANA Cloud with instant guided trials
- Update and change customer-specific configuration using SAP S/4HANA life-cycle management tools

YASH Solution

- Change Impact Assessment – Capture changes in the To Be System and their impact
- Stakeholder Assessment – Map stakeholders according to the impact and influence
- Stakeholder Engagement & Change Agent Network – Adoption activities for stakeholders
- Communications & Training
- Effectiveness Assessment – Final assessment of Training

Business Outcomes

- Better understanding of the impact of change from moving to a different ERP product and provide necessary interventions for smoother adoption
- Bring a collaborative structure into the organization, which is currently dealing with a high degree of non-alignment between stakeholders
- KPIs around high system adoption and User Training
- Effectiveness Assessment to gauge upskilling of the user community
