SAP® Qualified
Partner-Packaged Solution

Accelerating Successful HR Transformation for the Future Ready Workforce

YASH SFOne Pro powered by People Analytics

Accelerate your HR with SuccessFactors

Businesses today are growing at a rapid and sustainable speed with technical advancements enabling them to outshine their competitors. HR leaders play a crucial role in driving an organization's digital transformation and are now identifying the value of investing in solutions that bring out the power of their workforce to drive business outcomes. It is extremely important to choose the right solution that creates a positive impact and the move has to be quick and non-disruptive. Traditional system implementations often requires substantial budgets and months of dedicated resources and internal commitment, putting state-of-the-art solutions completely out of reach for some HR organizations. HR business processes need to be a hub that transforms the work experience of employees.

Leverage the Advantage of YASH SFOne Pro a SuccessFactors Solution

YASH SFOne Pro incorporates pre-configured content for Employee Central and Talent modules based on well-defined options and best practices in line with HR best practices, processes and methods. We have built-in data migration templates, predefined test scripts, and training accelerators to speed up deployment and reduce cost of implementation. Our solution provides recruitment templates, optimized goal libraries and many other quick starter solutions to accelerate value. Our customers can leverage their existing on-premise HR technology investments and combine it with our solution for a seamless experience.

Solution Implementation Approach

Ready-to-use combinations of best-in class software

Pre-defined Methodology & Services that have been specifically tailored to HR line of business needs

With a fixed Implementation Time
